As of July 1, 2023, the start of the 2023/2024 fiscal year for RAMPF Production Systems, Rüdiger Brockmann will succeed Hartmut Storz, who is retiring after almost two decades at the dispensing technology and automation specialist based in Zimmern ob Rottweil.

Rüdiger Brockmann will assume responsibility for marketing and sales, commercial, and product management. Stefan Huber, who has been a member of the management board of RAMPF Production Systems since July 1, 2022, will continue to be responsible for project management, operations, and materials management.

Rüdiger Brockmann, 51, studied engineering physics and laser engineering at the University of Applied Sciences in Münster and mechanical engineering at the Technical University of Chemnitz, where he also received his doctorate. He has extensive experience in management positions in mechanical engineer-

ing as well as the laser and automotive industry; most recently he was CEO Technology & Sales at the Zeltwanger Group.

Rüdiger Brockmann – “RAMPF Production Systems has earned a first-class reputation in numerous industries worldwide with its high-performance products and outstanding service. I look forward to continuing this dynamic success story together with Stefan Huber, Hartmut Storz, and the RAMPF team.”

Hartmut Storz, CEO of RAMPF Production Systems – “With Rüdiger Brockmann, a proven specialist has joined our company. I am convinced that he will quickly provide us with new impetus. For our customers and partners, this smooth handover ensures the continuity of our trusting and successful cooperation.”

RAMPF Production Systems GmbH & Co. KG is one of the world's leading suppliers of innovative systems for processing single-, dual-, and multi-component reactive plastic systems.

In addition to its core competence of mixing and dispensing technology, the company based in Zimmern ob Rottweil, Germany, provides product-specific automation concepts with integrated parts transport and heat treatment, assembly and joining technology, as well as logistic and quality assurance solutions.

The customer-specific solutions include integrating both surface activation processes as well as testing and measuring technology to safeguard production processes.

Prototypes and small series for customers are produced in the application-engineering center.

This wide-ranging expertise enables RAMPF Production Systems to provide its customers with complete solutions for their production facilities.

RAMPF Production Systems is a company of the international RAMPF Group based in Grafenberg, Germany.
