

Ancillary

Mineral Filler

Key Properties

- Granular mineral filler
- Medium particle size 1-2 mm
- Workable

Applications

- Filler

AC-9005

Mineral Filler

Color: Beige

Density: ca. 3.0 g/cm³

Bulk density: ca. 1.4 – 1.5 g/cm³

Grain shape: Angular

Can be used with Epoxy and Polyurethane Systems

Packaging: 20 kg

Storage

Original containers should be kept tightly sealed and stored at ambient temperatures (15°C to 30°C). If properly stored the products have the shelf-life indicated on the product label.

Partly used containers should always be sealed appropriately and used up as soon as possible.

Handling Precautions

Good workplace ventilation is to be ensured during processing. At the same time, the employer's liability insurance association's industrial hygiene safety regulations regarding the handling of reaction resins and their hardeners are to be observed. Please take heed of the appropriate safety data sheets.
